

Commercial Radial Lead 50V to 5kV

RoHS compliant interconnects, small case size, Radial Leaded Capacitors available in COG, X7R and X8R dielectrics. The conformal coating and lead mounting style provide a rugged configuration for optimum performance. Units exhibit high capacitance efficiency per KV rating and find application in commercial/industrial use up to 5kV, such as power supplies and voltage multiplier circuits. They are offered in bulk pack or taped form, Ref EIA-RS468, making them suitable for automatic insertion.

For dielectric characteristics see pages 4 & 6.

For capacitance tolerances available see page 26.

For ordering information see page 26.

Commercial Radial Lead 500V to 10kV

RoHS or Non RoHS Radial Leaded Capacitors available in COG and X7R dielectrics with high voltage ratings from 500V. The conformal coating and lead mounting style provide a rugged configuration for optimum performance. Units exhibit high capacitance efficiency per KV rating and find application in commercial/industrial use up to 10kV, such as power supplies and voltage multiplier circuits. They are also offered without the conformal coating for less harsh environmental applications.
