DLI introduces its new high frequency surface mountable catalog high pass filters. These HPF’s incorporate DLI’s high dielectric ceramic materials which provide small size and minimal performance variation over temperature. The catalog HPF’s are offered in a variety of frequency bands, which offers a drop in solution for high frequency attenuation.

**FEATURES**
- Small Size
- Fully Shielded Component
- Solder Surface Mountable
- Moisture Sensitivity Level: MSL1
- Frequency Stable over Temperature
- Operating & Storage Temp: -55˚C to +125˚C
- Characteristic Impedance: 50Ω

Physical Dimensions

- 50Ω trace dimensions are application specific.
- Ensure adequate grounding beneath the filter.
